

A Day of Focus on Water Quality Monitoring: Watershed Watch Network Meeting and Using Your Data Workshop

Tuesday, August 9, 2011

Stony Brook-Millstone Watershed Association
31 Titus Mill Road; Pennington, NJ 08534

The Watershed Institute and the NJ Department of Environmental Protection's Volunteer Monitoring Program are pleased to bring you A Day of Focus on Water Quality Monitoring.

Attend for the morning, the afternoon, or the entire day!

10 am - noon: Watershed Watch Network Meeting

Noon - 12:45 pm: Break (lunch will be provided)

12:45 pm - 3:15 pm: Using Your Data Workshop

Watershed Watch Network Meeting: In the morning, participate in the regular meeting of the Watershed Watch Network. The WWN is made up of volunteers, volunteer program coordinators and agencies. It acts as an umbrella for NJ volunteer monitoring programs. It's goal is to provide mentoring and technical assistance to groups conducting water monitoring activities. If you are interested in attending the WWN meeting, contact Danielle Donkersloot at danielle.donkersloot@dep.state.nj.us.

Using Your Data Workshop: You've collected data, now what? In the afternoon, learn how to use your water quality monitoring to steer your work and influence others. Get tips on identifying data uses and data users. Hear case studies from fellow watershed groups about their successes with using their data. Speakers include: Danielle Donkersloot, Volunteer Monitoring Coordinator, NJDEP; Ross Kushner, Executive Director, Pequannock River Coalition; Jennifer Coffey, Policy Director, Stony Brook-Millstone Watershed Association; and Cindy Pierson, President, Pompeston Creek Watershed Association.

The event is free, but registration is required by Friday, July 29.

For more information, or to register, contact Alyse Greenberg at 609-737-3735 x 27 or agreenberg@thewatershed.org.

Co-sponsored by The Watershed Institute and the
New Jersey Department of Environmental
Protection's Volunteer Monitoring Program
